Welcome Home Social

A welcome Home Social was held on Friday evening the 3rd Inst. in honour of the return from Scotland of Mr. and Mrs. Paton.

A large number of the congregation were present and a very enjoyable evening was spent by all.

Mr. Jas. Johnston delivered an address of welcome. Mr. Johnston spoke for all when he expressed the pleasure he publicly welcomed Mr. and Mrs. Paton back to the scene of their past and future work, and wishing them well and calling on the congregation to give them their loyal support throughout the winter work.

Mr. Fiston, in his response spoke of their difficulty in getting back to Canada and rightly and wrongly attributed their success in getting ahead of the bad weather on the waiting list to the tenacity with which he endeavored to procure reservations.

He concluded by thanking his congregation most heartily for their support and goodness and as during their absence him and Mrs. Paton would do all in their power to make their work in this field a great success.

Then followed a very interesting and entertaining programme as follows:

Vocal Solo: "The Carnival" encore "I Love The Moon." Mrs. Powers; Reading: "The Habitant" encore "My Little Canadienne," Roy Smith; Piano and Violin Duo Miss Bolton and Miss Barrieough Male Quartet: (Messrs. Daehner, Paton, Mason and Tegedine)

"Just a song at Twilight" Reading: "God's Signal" encore "Just Be Glad," H. D. Powers; Vocal Solo "Goodbye" encore "Absent" A. G. Bond; Male Quartet

OBITUARY

With the death of L. J. Kemp, Button, and in fact the entire district north of the Red Deer, loses one of its most valued citizens.

The deceased was one of the earliest settlers in the district; and from the time of his arrival right up to his death was an earnest and consistent worker for any community undertaking which has been commenced and carried on successfully there. He was almost invariably to be found where the work was hardest and was never known to refuse any worthy appeal for help.

His sterling qualities of citizenship and his quiet genial personality won for him the regard and affection of all; and his untimely death will be mourned honestly and sincerely by the whole country side.

The body was brought to the Bassano Undertaking Parlour on Friday, and the funeral service was held at the Presbyterian Church on Saturday, attended by a large number of townpeople as well as the deceased's more intimate friends from Hutton.

After the service the body was taken to Portland, Oregon for interment.

Would Have Senate Take Definite Stand

Pueblo, Colo.—Reducing his fight for the peace treaty to a direct issue of the will of the nation, President Wilson has added the Senate to take a definite and unmistakable stand one way or the other.

Referring to objections that the United States might be at a disadvantage if the Senate did not act, he said whoever said that "either was falsifying or had not read the covenant." He added that there was no validity in the argument that the British would count on the support of other nations, because the empire's six votes are in the assembly, which is only the "talking body" of the league. The real power of action, he said was in the council, where decisions must be unanimous.

No Discrimination Against Farmers

Board of Commerce Designs to Encourage Sale of Manufactures

Toronto.—"There is nothing in the charge that the farmers have been discriminated against," said Major Duncan, local representative of the Board of Commerce, in answer to a statement of opinion of farmers that had produced the subject of all the court's probing so far, and other necessities of life had been, so far, left untouched. The committee, he said, is chafing at the time limit, and is about to investigate first what it considers the most pressing cases. It will reach the clothing and boots and shoes and other industries in a short time—so soon as possible."

Retain Oil Fields For People

Would Have Western Leases Assigned to Energy Independent Companies to Have Control

Ottawa—Col. J. A. Currie, North Simcoe, has given notice of the following motion:

"That in view of the indications of great oilfield existing in northern Alberta and Saskatchewan, the law governing leases to oil prospectors should be changed so as to encourage independent oil prospectors, and at the same time preserve a royalty on the oil found for the benefit of Canada."

"That the civil service commission should be enlarged so as to give representation to returned soldiers."

"That a general amnesty should be granted to soldiers undergoing terms of imprisonment for military offence committed during the war."

A special commission has been appointed to make a tour of the world to visit oil fields, pipelines, and refineries and organize committees in every country through which the tank will pass.

Dirigibles may be used by the competitors for a part or all of the trip.

that the present tacit alliance between France, Great Britain and the United States was drawn up.

Land Settlement For War Veterans

Ottawa.—At the opening of the special committee of the House on soldiers' re-establishment, the telegram from the United Veterans' League, formerly the Gratuity League demanding representation before the committee came up.

The Imperial veterans of Vancouver had also asked that a representative be heard, and it was proposed to hear their delegates this week.

Big G. G. MacNeil, president of the secretary of the Imperial veterans at Winnipeg, was asked that a delegate be appointed and notify the Vancouver branch what had been done, and asking if that was safe, fast, and reasonable. It was put in the form of a motion, and was carried.

Commandant J. G. Evans, of the Army and Navy Veterans, Kingston, requested that his organization be given a hearing by the committee. It was decided to get in touch with J. T. Mc Donagh, president of the Army and Navy Veterans, asking that he take any action necessary toward appointing a delegate representing the whole organization.

S. Maber, secretary of the Soldiers' Settlement Board, was requested to question the costs of administration and the advances made to soldiers. By the end of this year it was expected the total outlay for the department would be \$46,000 for loans and administration. The estimate of \$150,000,000 for fifty thousand soldiers who were expected to

take loans, did not take into account the settlement of British ex-service men. Many inquiries from this class of men were being received.

Alberta—Mr. MacNeil, Mr. Maber said there were no figures available of the number of men disqualified because of inability to provide the necessary 10 per cent. cash payment. It would be difficult to secure any figures.

The matter of settling imperial soldiers, ex-service men, on the land was receiving serious consideration, he said. It was felt that it would be about all the land the board could handle in placing Canadian soldiers, he said.

Mr. McNeil asked if there was not a considerable amount of land available in the unclaimed land, now held under revenue.

Major Ashton answered that some sixty thousand acres of Indian reserves and land would be available for sale to the soldiers. Several hundred of these lands had been freed and several other territories were under investigation. These lands go to the soldiers' free of charge. Certain grazing fees are to be deducted here under the war time order.

No grazing lease lands had yet been released for soldier settlement.

Senate Labor Probe

Labor Commission's Investigation of Nation-Wide Steel Strike

Washington.—Arrangements have been completed for the beginning of the senate labor commission's investigation of the nation-wide steel strike. Col. C. L. Keay, attorney and receipt of assurances from John Fitzpatrick, chairman of the strikers' arbitration committee, that he would be on hand to present labor's side of the case.

Sen. George D. Brewster, Colorado, in an address on the floor of the senate, criticized the strike in bitter terms, declaring it had been called on the thinnest pretext.

Sen. Josephine (Dame) Warren, Colorado, is about to investigate first what it considers the most pressing cases.

It will reach the clothing and boots and shoes and other industries in a short time—so soon as possible."

Retain Oil Fields For People

Would Have Western Leases Assigned to Energy Independent Companies to Have Control

Washington—The senatorial probe would be setting forth before the public the real causes and objects of the strike. Fitzpatrick, as well as Senator Kenyon, chairman of the Steel Corporation, who is said to appear Wednesday, according to Senator Kenyon's plan of procedure, first will be asked for a detailed statement and then be called to censure-examine by members of the committee. It is hoped to complete the enquiry and return a report to the Senate within a fortnight.

Senator Kenyon holds the hope that the inquiry will be conducted in the spirit of the public interest after the progress of the strike.

The committee intends to learn from both sides of the dispute, exactly how many men and plants are affected, what the effect of the strike is on production, and how many non-union, what percentage remain "loyal," what collateral unions and industries are involved, and what conditions immediately led to the strike.

Good Crops In Dry Districts

Plant Flax Growing Most Profitable Crop in Our Current District

Swift Current, Sask.—No frost yet appeared in this district, the year having established a record in this regard. As a consequence many farmers have started cutting fields of grain.

Dr. Stiles, of the Baby Welfare League, urged that there should be some control on the price of milk. He also said that at the present time the dairy leagues in the districts of Montréal showed that in sixty-five per cent. of the cases investigated the milk being supplied was unfit for human consumption.

To Sell Surplus Grain

Amendment to Act Provides for Sale of Excess to Delay Administration Cost

Ottawa.—An amendment to the Grain Act, which notice has been given, provides that the amount of grain to be sold on April 31, 1919, in excess of one-quarter of one per cent. of the gross amount of the grain received in the elevator during the crop year, such excess surplus grain to be sold by the Canadian Grain Commissioners and the receipts applied toward the cost of administration of the Canada Grain Act.

Threaten Italy With Boycott

Paris—President Wilson has made some reply to the proposal of neutralizing Fiume and the internationalization of the docks and railways. The nature of the reply is not known.

In Italian circles, however, it is reported that President Wilson has rejected the proposal and has threatened an economic boycott, if Italy persists in holding Fiume without an agreement having been reached among the powers.

Fire in New Parliament Buildings

Ottawa.—The new parliament buildings were the scene of a fire, and for the fireproof construction a configuration such as that of February 1918, might have ended.

The fire was about \$2,000, but whether it was caused by an electrical fault or by an incendiary bomb is not known.

The firemen had to drag their hose through corridors, etc., in order to reach the fire. The damage to property was about \$2,000, but whether it was caused by an electrical fault or by an incendiary bomb is not known.

No Danger From Germany

Paris—After a long and acrimonious discussion of the German peace treaty, Andre Tardieu, French foreign minister, has finally assumed the chair of the conference.

He has made certain objections to the treaty made by M. Marin regarding the military forces Germany will be allowed to maintain. Tardieu declared that the German army should be reduced, under the terms of the treaty, to a sort of gendarmerie, and asserted that France had sufficient guarantees for the execution of the military clause in the treaty.

China's Peace Decoration

Peking.—In the mandate issued by President Hu Shih Chang, formally recognizing the independence of China and Germany, and the former Tuan Chi Jui, the former Minister of Finance, was awarded a decoration. The honor accorded him is in the bestowal of the Grand Order of the Garter.

Grain Act Amendment

Ottawa—Sir George Foster, Minister of Trade and Commerce, has submitted an amendment to the Grain Act, providing that in each year after 1919, stock shall be taken of the quantity of grain in the terminal elevators.

Want Canadian Castle

London.—The Daily Mail, in an editorial urging greater food production, says that the importation of cattle from Canada should be prohibited here under the war time order.

May Avert Strike On British Railways

London.—By a curious coincidence in the day Sir Eric Geddes has formally taken up his new duties as Minister of Transport, the Government was confronted by an ultimatum threatening a stoppage of the whole railroad system of the country, unless a basis for the standardization of rail rates was agreed upon.

When the ultimatum was issued, the Transport Bill, which created the new ministry, had passed through parliament, and the colonies, in particular, had not without significance.

The suddenness of the action of the National Union of Railwaysmen is the more inexplicable as, by an agreement, the war wages of the workers would operate until the more hopeful.

Plea For Solidarity Between The Allies

Salvaging Old Bullion

Specie Are Immense

London—A good many exaggerated estimates have been put into circulation regarding the amount of bullion which was lost with the sunken ships in connection with the steamship Laurentic, which lies a few miles off the entrance to the English Channel.

The facts are that the liner was worth \$2,500,000 worth of gold which the liner was carrying to America when it sank in January, 1917, probably less than \$250,000 has been recovered.

Of this about \$1,250,000 is still missing, and it is believed that the liner was carrying another \$1,000,000 worth of gold.

It is not so much the actual hooking up of the bars of gold that is difficult, as the dealing with the bars themselves.

These bars are blown up with gelignite and shifted before the bullion can be reached. Each bar is worth about \$100,000, and the recovery of two bars is reckoned a fair day's work.

The bars have been gathered together in a naval paymaster under a strong escort to London, and at various points the journey the officer met by government officials, who report "all safe."

For A New Palestine

Proposal For a Union of Palestine, Syria and Mesopotamia

London—Habib Lotfallah, chief representative of the Syrian union committee, informed the Associated Press that Prince Feisal, who is the son of King Hussein, has tentatively accepted a proposal drawn up by the committee for a union of Palestine, Syria and Mesopotamia.

Prince Feisal's acceptance, he said, will give the committee confidence in its ability to bring about a union of the three districts.

The proposal already has been before the Government, which is considering it.

Paris.—Premier Clemenceau delivered his prepared speech in the debate on the ratification of the peace treaty in the Chamber of Deputies. The whole trend of his arguments in favor of the treaty was one of solidarity between the allies, who united in war, must be maintained in peace.

He also admitted that the treaty contained many imperfections, but said it was the culmination of the work of "the coalition of liberation," the first of its sort in the history of the world, and that the days of a new era. He recalled the dark days of 1917, and declared that a peace proposal had been received eight years ago, when operations had to be suspended owing to General Lorraine, an French general who would have demanded the insertion of any other clause, but would have accepted it.

The treaty brought back more than the loss of prestige, and France's highest ideals of freedom and honor, and in a few years would bring prosperity. Those who had spoken in the debate, the Premier added, had criticized the document, but he had accepted it, and the advice given to him by his ministers, he said, was to keep the peace, and the advice he had received was to accept the instrument as it was.

The Premier's effort was tremendous. He remained on the tribune for more than two hours, and when he seemed to weaken, his voice becoming so low as to be almost inaudible beyond the first row of government benches. But he waved off the advice from all quarters of the chamber for rest and doggedly continued to display his indomitable spirit.

Austria Wants Monarchy

Movement Afoot to Restore Habsburgs By Choice of Young Archduke Otto

Geneva.—A movement is on foot in Austria to restore the monarchy with the former Archduke Joseph Otto, eldest son of the former Emperor Charles, as King, according to a Budapest dispatch. The former emperor would be named regent, the archduke would be named crown prince.

The Archduke Francis has not yet reached his seventh birthday, having been born November 20, 1912. For the Emperor Charles and Empress Zita, who had reported living quietly in a chateau at Prangins, Switzerland, near the shores of Lake Geneva.

To Buy Cereals

Buenos Ayres.—Coincident with the request made on behalf of Germany for a \$100,000,000 loan with which to purchase raw materials from Argentina, the finance committee of the Reichstag made available a majority report of the committee which would authorize the government to open a \$200,000,000 credit for Italy, France and Great Britain, of whom amount 75 per cent. would be spent on Argentine cereals. The loan would run for two years and bear interest at 5% per cent.

It Is Recalled That Glasgow Congress

arrived at a straight vote on direct action, and the Miners' Federation at present engaged in a great campaign to force the Government to adopt the miners' wage scale.

The miners' wage scale has been refused. The question is being asked by the public whether there is some political motive behind the miners' wage claim.

The cabinet sat for three hours considering the crisis, after which it was authoritatively announced that the Government had intimated its willingness to continue the negotiations on the ground that "some understanding" existed.

Sir Eric Geddes consented to meet the men's leaders, and the possibility of avoiding a strike, therefore looks more hopeful.

Hudson Bay Minerals

Say Secret Mine in Hudson's Bay Has Been Worked Since 1710

The Fox, Man.—That the Hudson Bay company has carried on secret mining operations on the east coast of Hudson's Bay for 200 years is the latest news reported recently. The location of the mine is stated to be at Little Whale river. The report has created the deepest interest and is good reason to believe that the ore will back to England in boats in the coming ships after they are emptied of trading supplies delivered at various posts dotted both sides of the bay. This practice dates back to 1710, when the mine was discovered, and since worked by the factors and his men laid up the whale post.

Prof. J. B. Tyrell, who is here to examine the mineral belt, says he has heard of the mine, but does not think it was being worked at present. He was unable to give any particulars concerning it, but he thought the ore was galena carrying some values in lead and silver. Further information, he said, might be obtained from the company's head office at London.

Copenhagen, Denmark.—The conference between the Estonian, Latvian and Lithuanian-prime ministers and the Finnish Minister of State considered the peace proposals of the Soviet Government and the general situation, including the extension of a mutual zone between the border states and Russia, and other measures which might prevent the Bolshevik movement spreading to the border states. The official report states that a definite line will be taken when their representatives have conferred with their respective governments.

Less Wheat Sown In Britain

Farmers Keep Up Livestock, But Dairying Declines

London.—Provisional estimates by the Ministry of Agriculture show a decrease of 356,000 acres sown to wheat during the war, though there has been a slight increase in the area of arable land since 1918.

While an estimate of the first-year output of the nation's cattle herds has been obtained, there is a failing off in dairying. The stocks of sheep are smaller than any recorded yet.

PEOPLE'S MARKET LTD.

The Expenditure of \$610,000,000

How the last Victory Loan was spent

BEFORE buying Victory Bonds again you may want to know how Canada used the money you loaned her last year.

Canada borrowed the money to carry on the war and to provide credits for Great Britain and our Allies.

CONSIDERABLY more than one-half of the Victory Loan 1918 was spent on our soldiers. This included \$312,900,000 for paying them, feeding them, bringing them home, separation allowances to their dependents, maintenance of medical services and vocational training schools.

\$59,000,000 of the Victory Loan 1918 was paid on account of authorized Soldiers' gratuities.

\$9,000,000 was spent at Halifax for relief and reconstruction after the disaster.

+ + + + + + +

Other disbursements were not strictly speaking expenditures, but National Re-investments.

To Great Britain for example:

\$173,500,000 was loaned for the purchase of our wheat and cereals.

\$9,000,000 for our fish.

\$30,000,000 for other Foodstuffs.

\$2,900,000 for Canadian built ships.

\$5,500,000 to pay other British obligations in Canada.

Making in all \$220,900,000 advanced to Great Britain

To our Allies, we loaned \$8,200,000 for the purchase of Canadian foodstuffs, raw material and manufactured products.

The Re-investments will be paid back to Canada in due time, with interest.

These credits were absolutely necessary to secure the orders for Canada because cash purchases were impossible.

They have had the effect of tremendously helping agricultural and industrial workers to tide over the depression that would have followed the Armistice, had we not made these credit loans.

As far as money is concerned, 1919 has been, and is still—just as much a war year as 1918. Our main expenditures for war cannot be completed until well on into 1920. Thus another Victory Loan is necessary—Get ready to buy.

Proportional Representation

The action of the recent Industrial Conference held at Ottawa in unanimously endorsing the principle of proportional representation and asking the Dominion Government to take the necessary steps to study the question, with a view to its application in the next election, was accompanied with announcement that the Government had decided upon such a course, bringing appreciable nearer the day when this reform in the electoral machine will be fully accomplished fact.

The principle of proportional representation has now been approved by such large and influential bodies as the Canadian Council of Agriculture, representing over one million farmers; the Canadian War Veterans' Association; the National Liberal convention at Ottawa last August; the Labor party, Social Service Councils, and numerous other smaller organizations. Speaker's Electrical Reform Conference in British Parliament has reported in favor of the application of P.R. to certain classes of constituencies; it has been incorporated in the constitution of the Canadian government, is already in operation in Belgium, Tasmania and other countries, and has been tried with complete satisfaction and success in municipal elections in the United States and also in the Universities of England for the British House of Commons.

Nevertheless, we venture to say that if the average Canadian was asked to explain what proportional representation means, and how it operates, he would not put it down as being an intelligent answer. And it may as well be frankly admitted that it is not an easy matter to explain in a short article, especially to those who have no knowledge or idea of what representation is to parliament, legislatures and municipal councils by bare majority vote firmly fixed in their minds. However, in view of the fact that proportional representation is now in operation in this country, it is well that an attempt, at least, should be made to explain this new system, its method, and the results which are sought to be attained by it, though such an attempt may necessitate a series of two or three articles.

The aim and object of our electoral machinery should be to secure justice and freedom to all citizens, whether in a majority or a minority, to the end that they may be fairly represented in parliament, and also that they should have the widest possible choice in electing those who are to speak for them in parliament. Edmiston, of the House of Commons, "consists in being the express image of the nation." If it is not that, it quickly loses the confidence of the people, and with that confidence the authority to represent them to speak and act for the people.

It must be frankly admitted that our present system of one-member constituencies—and that one member elected by a bare majority of votes cast over the entire electorate—does not secure to the people a truly representative parliament. For example, in the Dominion general elections of 1904, the Liberals in Nova Scotia polled 56,526 votes and elected 18 members, while the Conservatives, who polled 46,131 votes, did not elect a single member. Canadian Wheat

For Europe

A dispatch from London, England, says the Canadian Trade Mission has sold the equivalent of 500,000 bushels of wheat to Russia, 18,000,000 bushels of wheat, to be shipped from Canadian ports before navigation closes. The contract has been accepted on a basis equal to last year's price.

The Greek Government has asked for 112,000 tons for delivery in September, October and November.

HER LITTLE GIRL HAD DYSENTERY

Bowels Moved as Many as 23 Times a Day

Dysentery manifests itself with varying degrees of intensity, but in many cases it can only be remedied by some amount of diarrhoea, which gradually increases in severity, causing violent cramps and gripping pains in the abdomen. The discharges from the bowels succeed each other rapidly, and the matter passed from the bowels, while at first resemble those of ordinary diarrhoea, become scaly, mucous or slimy, and subsequently mixed with blood and mucus.

Never neglect what at first appears to be a slight attack of diarrhoea or dysentery.

In other words, minorities under a one-member system are almost entirely unrepresented—a fatal defect in any true system of responsible, representative government. Proportional representation aims to correct these inequalities and give the greatest possible approach to "one vote, one man."

An essential feature of any proportional scheme that will yield the most satisfactory results is the creation of constituencies composed of several members, instead of the present system of one-member constituencies.

Proportional representation can be applied to one-member constituencies, but not with the same beneficial results as in the four or five-member constituencies used by the European members. Instead of the present system of one-member constituencies, Proportional representation will produce a much more uniform result, as each constituency will be represented by a number of members which would elect 10 members. The same would be true of Toronto, Winnipeg and other large centres. In these centres, others under the present system, there would be no difficulty for a working man to secure the election of a representative, their combined vote would secure to them their proportional representation in the legislature, and the same would be true in the case of Larose, St. John, N.B., just returned from Europe.

Five Thousand British Women Determined to Obtain American Husbands

New York's five thousand well-known British women determined to obtain American husbands, soon will arrive in the United States according to a recent report made to-day by Mrs. S. C. Seymour of the British Co., Limited, Toronto, Ont.

Miss Seymour was employed by the military authorities to supervise the transportation of the war brides of America in different parts of Europe. She announced the matrimonial army of invasion had already applied for passports and would arrive as soon as possible. The first ship to leave will be the "William's Pink Fills,"

which made her health troubles acute.

The case is simple—the cure is easy. Her remedy is to drink her own good blood that keeps her well; when she must make her blood stand to receive the services of a nursing mother more than any other woman in the world needs rich blood to keep her healthy. This is the always unfailing way to get this good blood necessary to perfect health, and to make her health troubles an easy cure.

The Farmer Makes Good

Without any security but the Prime Minister's word, the farmers ploughed up the land and labored to establish their scanty capital in tillage. In doing so they risked everything for a nation that had utterly neglected them before the war. They showed that the farmer was a good farmer and a good business man. For years the townsmen had ignorantly laughed at the farmer as a "fellow without ideas and without enterprise, yet in the short space of four years that same farmer, short handed as he was, had cleared the prairie under the heat of the sun and the blizzard under the snow as to what was to come.

Military Occupation

Of Levant

Before the 1st embroilments embroiled Lloyd George and Mr. Clements

Parke, France—it is officially announced that Mr. Clements and Mr. Lloyd George have reached an agreement on the changes to be made in the method of military occupation of the Levant by the French and British troops. Under this agreement British troops must evacuate by November 1 all the territories north of the frontier between Syria and Armenia. It is understood that this frontier has only a nominal character and can be changed when the Peace Conference definitely fixes the political organization of the Levant.

Thanksgiving Services will be held in the Presbyterian Church on Sunday, October 12th. The church will be suitably decorated for the occasion, and at the services at 10:30 p.m. there will be special music. The minister will speak on the subject "Reasons for Thanksgiving." You are cordially invited to attend.

Mass will be sung at St. Colombe's Church Bassano on Sunday October 12th at 10 a.m.

Mrs. Jane Margison, mother of Mrs. H. J. Upton of Rosemary, died on Saturday last at the ripe old age of 75 years. The interment took place at Duchess cemetery.

Several dry farmers are anxious to see a seed fair held in Bassano this year for they have a good idea that they can repeat their victories over the irrigationists.

The Bassano Fire Department has been reorganized and that portion of it lying north of the Red Deer River has been absorbed in the new Judicial District of Acadia, the headquarters of which are at Hanna.

Users, and misusers of automobiles and Ford Cars will be interested to learn that Frank Berry's hospital shop has been transferred across the street, where an entirely new and up-to-date operating room has been established.

Everybody knows that love is blind, but until a few days ago we did not know it was so blind that it would cause a man to drive a car hitherly into his (or somebody else's) grave. What do you know about that, "Cap?"

Mr. Gibson, of the Bank of Commerce staff, has been transferred to the local branch from Red Deer. Mr. Gibson is a veteran veteran who had the experience of eight months in a German prison camp, and his opinion of Germany is rather more illuminating and depressing than the law allows us to prints.

TOWN COUNCIL

The meeting of the Council held on Monday last was not remarkable for any special feats of legislation neither were there any fireworks, oratorical or otherwise, following the attendance of A. T. Connolly after his absence of eighteen months from the session of his many labors.

It was just a quiet session during which some excellent business from the town's stand-point was transacted.

Permission was given to the Bassano Band to hold practices in the Town Hall every week.

Engelina Brennan was given leave of absence for two days, without compensation.

Engelina Gurney reported that he had received two cheques from T. H. Hunter amounting to \$146.50 in payment of 1919 on his properties in the town. The Council decided to accept these as payment in full, less 5% discount.

Mr. Dawson of Calgary wrote to connect Nenbit's property, on 4th Ave., with water and sewer, laying the town to participate in the expense of trenching etc. But the Council considered it had not been enough for one night and refused to it.

Operation of Buckskin Coal Mine it was decided that before any action is taken this year, the town auditor be asked to show a profit and loss account for the years 1917 and 1918.

Letter from Mr. Bond, regarding raising money, enclosing cheque for certain small sums approximating in the whole \$1,000 in connection thereto. Mr. Bond suggested that if the Mayor objected to Taxpayers making their cheques payable to him personally, it might be a good idea to advise them by advertisement to have nothing to do with him (Mr. Bond).

A letter from D. Burton, Calgary, re yet another subdivision to be cancelled was referred to the School Board for their determination thereon.

Letter from T. H. Hunter re payment of his bill, which was referred to Fire, Light and Police Committees.
